The decision to form such an organization was taken Sunday as a result of a stirring appeal by the Rev. H. E. Stewart, pastor of the church.

"The bad and lawless element of the negro race always has and will continue to affect the better element vastly more than the lawless element of the whites will affect that race, the preacher said. "Our people are judged by the worst element of our race, and unless we rise and condemn and fight against this lawless element we will be rightly judged. "In the trouble at Springfield we are apt, perhaps, to condemn the whites.

But we must accept our share of the responsibility. We, should form an organization, a law and order league, or a good citizens' league, to rid our commu-nity of negro lawbreakers. We do not want the impression spread broadcast that our people harbor the criminals of our race, and we must act in our defense and in defense of the future good name of our people."

## "LOOIE" STABS A COCKROACH

HARK TO THE TALE OF THE TROUBLES OF COOLIDGE.

He Almost Gave The Star Man a Cigar, But Couldn't Find Any But the Good Ones.

Assistant Secretary Coolidge of the Treasury Department is worried about cockroaches. His office in the Treasury has more of the pesky little creatures in it than the vaults below him have dollars in them-at least, so he says.

There were a few in evidence this mornng when a Star reporter called at the assistant secretary's office. Thirty or forty of them were gazing out the window at the Washington Monument, and about sixty were sitting on the mantelpiece, feet crossed, waiting for something to happen. They did not have to wait long, for Mr. Coolidge wheeled suddenly in his chair, picked up a pen and hurled it with unerring aim at the largest and wickedest looking roach in the bunch. striking him to the heart. The rest of the band disappeared like the morning mist which gathers overnight in the valleys and dissipate into thinnest air at the approaching rays of the sun.

List to the Echo. "I got him!" cried the bloodthirsty assistant secretary. "He got one!" cried the clerk, sitting

up and taking notice. "He got one!" cried the doorkeeper outside, straightening up and shouting the ews to the next doorkeeper.

"Assistant Secretary Coolidge got another one!" echoed down the corridor, and from that corridor to the next one, and so on to the basement, where the watchmen rushed upstairs to see whether or not it was true.

They are terrible," said Mr. Coolidge, when the truth of the killing had been established. "These roaches are pester-ing us to death. I can't hire any one to kill them, for the civil service has no roach killers on its list. What shall I do? What shall I do? Here I am holding down a position of responsibility and eminence and all I can think about is roaches. "Roaches! Roaches!! Roaches!!!

"I wish every reach in creation was A young lady entered the room at that moment, and the assistant secretary cussed telepathically.

At the age of twenty-seven Coyne, who ives at 4939 Lorraine avenue and has survived one of the most notable surgical operations ever performed in a St. Louis hospital, has been forced literally to begin his life anew. For when he regained consciousness, after part of his brain had been removed on the operating table at the City Hospital following a street car accident, he found that the surgeons had amputated his memory. Mentally he was a child again, unable to talk, walk, read or write, and unable to re-

member his name. His past was absolutely a blank. Every incident preceding the operation had been erased from his memory as a sponge wipes the writing from a slate. Little by little, as a child masters its three r's, this man has relearned his alphabet and his multiplication table. He has learned again how to walk and talk and read and write. He has learned his

THE ALCOHOL in beer is a trifle—only 3½ per cent. The effective ingredients are barley and hops—a food and a tonic. Pure beer is both good and good for you.

In Germany, Holland, Sweden, Denmark and Austria beer is the national beverage. Nearly all people, of all ages, drink it.

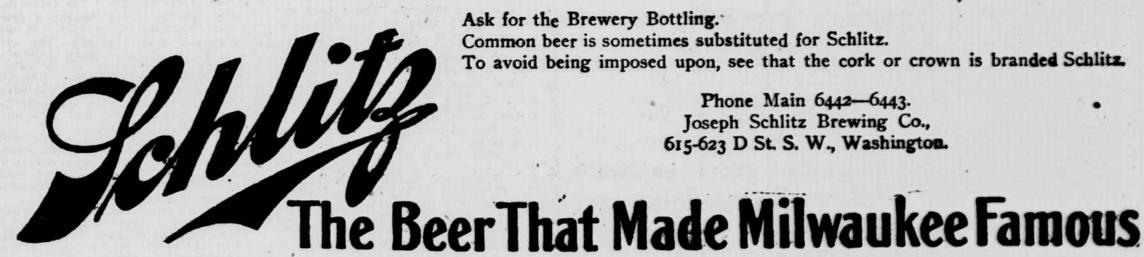

And all the world envies their sturdy strength.

Every doctor knows how beer benefits. If you need more strength or vitality he will prescribe it.

But be careful to choose a pure beer, else you get harm with the good. And select a beer well aged to avoid biliousness.

The way to be sure is to order Schlitz. We go to extremes in cleanliness. We even filter the air that cools it. We age it for months. We sterilize every bottle.

Schlitz has no after effects.

Ask for the Brewery Bottling. Common beer is sometimes substituted for Schlitz. To avoid being imposed upon, see that the cork or crown is branded Schlitz.
